The United States plays an important role in the activities of the multilateral development banks (MDBs) and

is typically the largest single shareholder, contributing generously to the development projects in the countries where the banks operate.

5-Multilateral Development Banks | export.gov

A multilateral development bank (MDB) is an institution, created by a group of countries, that provides financing and professional advising for the purpose of development. MDBs have large memberships including both developed donor countries and developing borrower countries. MDBs finance projects in the form of long-term loans at market rates, very-long-term loans (also known as credits) below market rates, and through grants.

International financial institutions - Wikipedia
