Procopius of Caesarea, who accompanied the Roman general Belisarius in the wars of the Emperor Justinian, became the principal historian of the 6th century. Whilst alive, his books were in favour of Justinian, but this book, written for posthumous publication and not discovered until centuries later, is not only really critical of Justinian, but portrays him as some sort of demon. The accounts in this book sound farfetched, but are considered genuine (albeit not accurate) by modern historians.

The Secret History is the first novel by Donna Tartt, published by Alfred A. Knopf in 1992. A 75,000 print order was made for the first edition, and the book became a bestseller. Set in New England, *The Secret History* tells the story of a closely knit group of six classics students at a small, elite Vermont college, Hampden College, similar in many respects to Bennington College where Tartt was a student from 1982 to 1986. The story is an inverted detective story, not a whodunit but a whydunit.
