Guidelines On Food Fortification With Micronutrients

Every day too many men and women across the globe struggle to feed their children a nutritious meal. In a world where we produce enough food to feed everyone, 821 million people – one in nine – still go to bed on an empty stomach each night.

Zero Hunger - World Food Programme

Here is the text of Newsweek's 1975 story on the trend toward global cooling. It may look foolish today, but in fact world temperatures had been falling since about 1940.

Newsweek on the cooling world - Denis Dutton

Definitions. According to the United Nations humanitarian criteria, even if there are food shortages with large numbers of people lacking nutrition, a famine is declared only when certain measures of mortality, malnutrition and hunger are met.

Famine - Wikipedia

The World Bank Group brings together knowledge and expertise across all major sectors of development. Our goal is to help developing countries find solutions to the toughest global and local development challenges—from adapting to climate change to boosting food security or fighting corruption.
